### Non Electric Automatic Valve for Softening

• Made in China; •

.

- Control valve suitable for residential and softening applications; Made of Noryl; ٠
- ٠
- Non electric automatic valve powered by incoming water pressure; Standard application is single but it can be managed in twin or parallel multi tank;
- Counter-current regeneration mode, hard water supply and hardness blending valve embedded; Tank range diameter : 7"-16"; •
- ٠
- Brine valve recommended; • •
- Counter current regeneration process with high efficiency, water and salt saving; •
- Volumetric regeneration;
- Multiple configurations : S=Single tank ; D= Double tanks (1duty + 1standby) ; E= Two valves up to 4, parallel with sequential regeneration;
- The double safety design of brine valve prevents water overflow from brine tank;
- Manual forced regeneration mode; Outlet pressure > 1,5 bar.

## Fleck Residential Valves Series 5800

- Made in European Union (Italy)
- The 5800 control valve is suitable for residential/commercial filter/softening applications. The valve body in in fiber-reinforced material is UV rays resistant and no subject to corrosion.
- 5800 represents a great step forward in the Fleck product range: the valve platform
- is made of one hydraulic valve and different controllers, allowing various options, eliminating the need to stock a variety of control valves for filter or softener applications. 5800 features an improved flow, easy servicing (one-piece seal and spacer cartridge for quick and easy replacement) and a quick set-up.
  Cartridge with seal and spacer, reduced list of spare parts and snap assembly.
- LCD backlit display that helps in the presence of poor lighting conditions.
  - Down/Up Flow regeneration, according to the models.
  - Valve body in Noryl plastic material = polyphenylene oxide (PPO). Operating Flow Rate =  $4.7 \text{ m}^3/\text{h}$  (21gpm) Backwash Flow rate =  $3.8 \text{ m}^3/\text{h}$  (16 gpm)
- Regeneration: Chronometric: 7 or 12 days Volumetric: delayed or immediate Electronics
- Complete with 1.05" twist lock upper screen. In 24 V with international adapter 230 VAC 12 VDC 50/60 Hz. **NOTE**: Not use silicone lubricants. **OPTIONS**: Electronic LXT SXT XTR
